Claimant Recovery - Our Technology

Our efficient and effective claims recovery service is driven by our inhouse intelligence solutions platform - **VisP**.

VisP enables us to monitor, track and expedite claims settlement and financial debt recovery, with the added benefit of providing real time high quality data analysis and strategic insight.

Our reporting suite provides business intelligence and actionable insights to support and inform effective claims strategies. Helping to increase claims management performance, operational excellence, cost containment and improved cycle times.

Claims

Litigation

Our full litigation service supports our clients across the whole claims sector and litigation process.

Working with our legal partner we have quickly and respectfully gained a reputation as a superior provider of legal services, designed to take the challengers and stress out of your claim.

We tailor our services around your requirements and have a philosophy that delivers timely settlements, which can reduce claim cycle times and indemnity spend.

Claims

Claimant Recovery - Charges

Our claims recovery charges can be tailored to meet your requirements and therefore, we offer a flexible pricing matrix designed to suit your particular book of business.

1. A nominal upfront set up fee - plus an additional percentage of recovered amount.
2. Full management fee paid up front - no additional percentage charged on recovered amount.
3. No upfront set up fee - just a percentage charged on recovered amount.

We're here to make your life easy, let's turn those recovery claims into reality.
